STUDIES

ROBERT PARENTEAU

Robert Parenteau is WLON's resource director and representative on The Panel. In this role he participates in Panel and Technical Subcommittee meetings and offers WLON's perspective on studies and future remediation efforts.

JASON MANN

ANNIE DIETRICH

DAN LEITCH

We are WLON's Technical Advisors. We are providing the engineering and scientific services for the Wabigoon Lake Background Environmental and Water Regime Study. These services include: sampling, testing, analysis, and capacity building for WLON members.
